AKRON 8, OHIO

HOTEL

Darling wife,

Only 19 more days till
we'll be together again and I'll
sure be glad when ^{this} is all over.
Don't get me wrong, I'm enjoying
the school and tours of the
plant but I sure miss not
getting to be with you and
Eve when night comes along.
You surely have a letter on
the way by now, so I'll hear
from you by tomorrow night.
Be sure and let me know how
you are every day and phone
me if anything comes up that you
need me.

Today we had some talks
by a few of the plants dignitaries
and toured plant no# 2 to
see how tires are built. It was
interesting and educational and
I enjoyed it.

I'm in a room with
a fellow from Indiana by the
name of Bassile. He drove his
car in and last night -

MAYFLOWER

AKRON, OHIO

Someone stole 2 suits of clothes and 14 neckties among other things. He had left his car parked along the street overnight with his things in it.

Boodyear gave us a membership ticket to the Y.M.C.A. for while we were here and our instructor took us up there tonight and acquainted us with the place. Several of us stayed there and had supper at the Cafeteria. The food was swell and didn't cost so much as other places here. I've had a terrific appetite since I got here, so I may be fat when I get home.

All my Love,

Don
